# RAJRATN MORE

## React Frontend Developer

⇒ github.com/rajratnmore

#### **EDUCATION**

Master of Computer Application K. K. Wagh Institute of Engineering **Education & Research** 

2018 - 2021 Nashik, MH

Bachelor of Computer Application Smt. S. M. Agrawal Institute of Management

📛 2015 – 2018 | Chalisgaon, MH

#### **SKILLS**

Languages: HTML CSS Javascript

Core Java MySQL

Technologies: React Js Spring Boot

**Bootstrap Tailwind CSS** 

Concepts: Responsive Design Redux/Hooks React Router RESTful APIs Lazy Loading

### COURSEWORK

Data Structures & Algorithms Design and Analysis of Algorithms **Object Oriented Programming** Operating System **Database Management System** 

## **ACHIEVEMENTS**

- Completed certified React Js course 11/2023 - 02/2024
- Solved 300+ DSA/Coding questions on Hacker rank and Leetcode

**2023 - 2024** 

platform

- Participated in various Coding contests organized by a Geekster platform
  - **1** 06/2023 01/2024
- Worked as a Teacher in computer academy while pursuing BCA

**2015 - 2018** 

#### **OBJECTIVE**

Ready to bring coding expertise and innovative problem-solving skills to an organisation and solve the challenges of leveraging React.js to build modern and responsive user interfaces while continuously learning and growing as a React.js developer.

#### **PROJECTS**

#### **Food Restaurant**

門 12/2023 - 02/2024

I have developed a dynamic and responsive food delivery application using React.js, integrating with the Swiggy API to retrieve restaurant data. Implemented a user friendly interface showcasing restaurant cards with details including name, cuisine type, ratings, and images.

- Utilized the Swiggy API to fetch real-time data about restaurants, ensuring accurate and up-to-date information for users.
- Implemented pagination functionality to enhance user experience by efficiently managing large datasets of restaurants, allowing users to navigate through multiple pages seamlessly.
- Employed React Router for client-side routing, enabling smooth navigation between different sections of the application without full page reloads.
- Leveraged both React hooks and class components to manage state, handle side effects, and maintain component lifecycle methods, ensuring optimal performance and code organization.
- Designed functional components to encapsulate UI elements and enhance reusability, promoting a modular and maintainable codebase.

# ToDo List

**1** 06/2023 - 07/2023

https://todolist-cba04.firebaseapp.com/

I have developed a Todo List web application using React.js, providing users with the ability to add, delete, update, and edit tasks effortlessly. The application offers a seamless user experience with intuitive task management functionalities.

- Implemented comprehensive task management functionalities allowing users to add new tasks, delete existing tasks, mark tasks as completed, and edit task details.
- Enabled Create, Read, Update, and Delete (CRUD) operations on tasks, ensuring users can seamlessly interact with their todo list to keep track of their tasks effectively.
- Successfully deployed the application, making it accessible to users via a live hosted environment, enhancing visibility and usability.

# Portfolio

**11/2023 - 11/2023** 

https://portfolio-rajmore004.firebaseapp.com/#home

I have developed a personalized portfolio website using React.js to showcase my projects, education, skills. The portfolio serves as a comprehensive overview of my work, providing visitors with access to hosted project links and detailed information about my background and capabilities.

- Curated a collection of my projects with hosted links, allowing visitors to explore each project's functionality and implementation details.
- Provided details about my educational background, including degrees earned, academic achievements, and relevant coursework.
- Highlighted my technical skills and expertise, showcasing proficiency in technologies such as React.js, JavaScript, HTML/CSS, and others.
- Implemented responsive design principles to ensure optimal viewing experience across various devices and screen sizes, ensuring accessibility and usability for all
- Included contact information for potential employers or collaborators to reach out for inquiries or opportunities.
